Response to Amendment

Page 2

1. This office action is responsive to the amendment filed on 8/17/04.

2. The objection to the drawings in the last office action has been overcome based on

applicant's persuasive argument in the Remarks Section.

3. The objections to the specification and the claims have been overcome based on

applicant's amendment.

REASONS FOR ALLOWANCE

4. Claims 1-8 are allowed.

Claim 1 is allowed because the prior art of record fails to disclose or suggest an analog switch which includes all of the limitation of this claim. In particularly, the prior art of record fails to disclose or suggest the analog switch including a circuit for setting a potential of a gate of the first n-channel MOSFET to a potential of positive power supply voltage when the potential of the input signal is lower than the potential of the reference signal, and for setting the potential of the gate to a potential higher than the positive power supply voltage when the potential of the input signal is higher than the potential of the reference signal.

Claims 2-4 are allowed because they depend on claim 1.

Claim 5 is allowed because the prior art of record fails to disclose or suggest an analog switch which includes all of the limitation of this claim. In particularly, the prior art of record fails to disclose or suggest the analog switch including a circuit for setting a potential of a gate of the first p-channel MOSFET to a potential of negative power supply voltage (or ground potential) when the potential of the input signal is higher than the potential of the reference

supply voltage (or ground potential) when the potential of the input signal is lower than the

signal, and for setting the potential of the gate to a potential lower than the negative power

potential of the reference signal.

Claims 6-8 are allowed because they depend on claim 5.

Conclusion

5. Any inquiry concerning this communication or earlier communications from the

examiner should be directly to Examiner Long Nguyen whose telephone number is (571) 272-

1753. The Examiner can normally be reached on Monday to Friday from 8:30am to 5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Tim Callahan, can be reached at (571) 272-1740. The fax number for this group is

(703) 872-9306.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private

PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
